

Benefit for Cruz Chavez

Date: July 14, 2013 Time: 3:00 p.m. – 6:00 p.m.

Where: American Legion Hall Address: 7811 Davenport St., Omaha, NE 68114

We will be providing a benefit feeding, multiple raffle items, and a silent auction.

This child is Ryan Gish's (NE ITEX Broker) girlfriends son, this cause is close and dear to our hearts. As a mother of 5 children (Terri Smieja NE ITEX Broker) in which 3 of them work for ITEX, we support any of our family members.

“Angels do walk among us on this earth and we are thankful for each and every one of you”

Cruz is a complete medical mystery and to date there is no diagnosis of why his heart has failed. According to the doctors 27% of children at his stage die due to possible complications of the Berlin heart, such as blood clots or neurological damage, or just awaiting for a heart to come available.
